ZODIAC PLUS

Solid State Coder

All ICE coders are designed and manufactured using state-of-the-art technology to offer Peak Performance, reliably delivering accurate high quality real-time codes, date codes, barcodes and graphics on-line.

PROVEN TECHNOLOGY

Since introduction, four years ago, the original ICE Zodiac solid state coding equipment has established itself as the most technically advanced in the market, with thousands of units now successfully installed world-wide.

The ICE Zodiac solid-state coder provided the next generational leap in performance, ensuring "best-in-class" reliability, accuracy and the lowest cost of ownership available.

The ICE Zodiac features include:

- ▶ **Unique solid state ribbon drive system (patents pending)**
- ▶ **No clutches, No brakes, No ongoing settings or adjustments**
- ▶ **High efficiency ribbon utilisation for minimum cost per print**
- ▶ **Both intermittent and continuous printing within the same machine**

The ICE Zodiac solid state coder has successfully achieved a radical step forward in the TTO market place, which has proved difficult to improve upon, but enhancements are now available, in the form of the NEW ICE Zodiac PLUS model.

ZODIAC PLUS – the next step ahead

Building on the proven success of the ICE Zodiac:

- PLUS** additional high speed printing capability
- PLUS** enhanced low speed substrate printing
- PLUS** new and simplified data handling techniques
- PLUS** improved ribbon utilisation
- PLUS** larger application reach
- PLUS** faster imaging for random applications
- PLUS** more flexibility
- PLUS** increased throughput

ZODIAC PLUS – taking PEAK PERFORMANCE further
